

IRF-900

Single-phase (230V / 50Hz), 11-degree (230,220,210, ..., 140,130,120 V) thyristor rotation speed controller, for use in industrial environments (IP 54), available in surface-mounted version.

The controller is provided with a visual indicator of operation and currently set gear. Ability to run the fan with the startup phase (temporary voltage boost).
